CORPORATE PROFILE

We are an experienced turnkey solution provider in the field of water, sewage and wastewater treatment & recycle systems including zero liquid discharge - ZLD. ADENPRO & ENCON provide the most comprehensive, economical solutions to various treatment and recycle requirements for industrial, institutional, domestic and municipal customers , through a pioneering approach.

Our Vision:

To command respect in business circle as a trusted brand in providing ECONOMICAL SOLUTION to all their water and recycle needs.

Specialized In :

Construction, Design, Detailed Engineering, Supply, Installation, Commissioning & Operation And Maintenance of

ORGANISATION CHART

Our Board of Directors

Mr. Ramesh.N
Director - Environmental

Mr. Dalawai S.A
Director - Civil

Mr. Kiran.S
Director - Admin & Finance

Key Members

Mr. Manjasetty B.G.
Project Manager

Mrs. Nivedha
Environmental Engineer

Mr. Manju K.S
Civil Engineer

Mr. Ramesh B.R
Mechanical Engineer

DIRECTOR'S PROFILE

Mr. RAMESH has over **38 years of extensive experience** in all aspects of Environmental Engineering for Industries and Municipalities in India as well as many other Asian countries (viz. Sri Lanka, Maldives, South Korea, Nigeria, Ethiopia, Indonesia, Bangladesh, Malaysia , Vietnam, and Singapore) and Turkey.

Mr. RAMESH holds a Master's Degree in Environmental Engineering from Indian Institute of Technology **– IIT Mumbai,.**

Area of Expertise: Conceptualization, Process Design, Execution, Commissioning and Operation and Maintenance of Water and Wastewater treatment systems of varied type of effluents

- Executed more than 200 domestic wastewater treatment and recycle plants up to a capacity of 17 MLD.
- Executed more than 50 Industrial wastewater treatment and recycle plants up to a capacity of 8 MLD which also include Petrochemical, Refinery, Electro plating, Paper and Pulp, Sugar, Tannery, Pharmaceutical, Chemical, Distillery, Food Processing, Textiles etc.
- Executed more than 25 Industrial water Treatment plants up to a capacity of 48 MLD.

Mr. Dalawai has **over 35 years of experience** in Civil and Infrastructure department . Constructed many civil structures for sewage and effluent treatment plants for many Industries in India.

Mr. Dalawai holds a Bachelor's Degree in Civil Engineering from K.L.E College of Engineering, Karnataka.

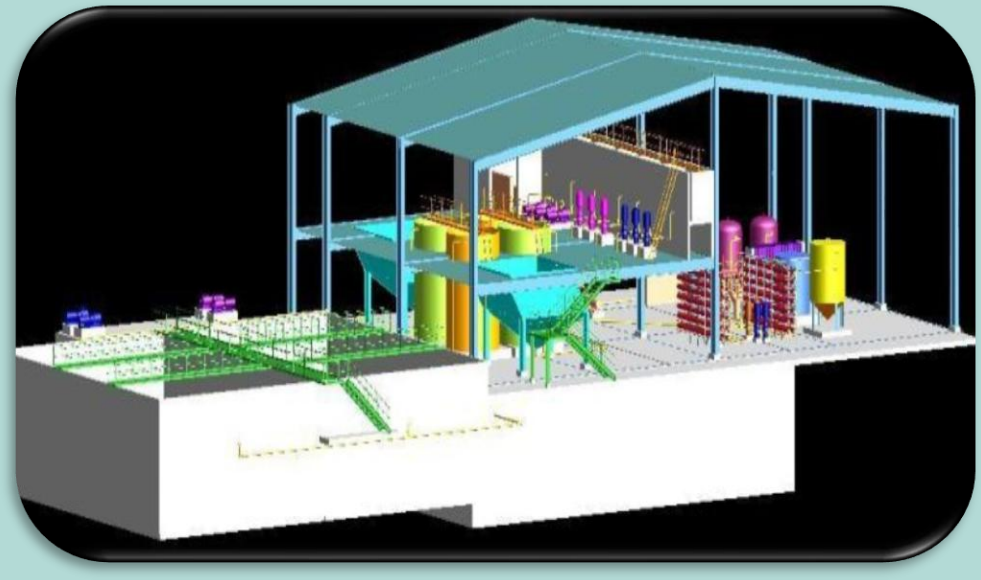

Area of Expertise: Working in the field of Construction for **last 25 + years.**

- Executed a number of Industrial projects. Executed a number of RCC structures, Fabrication and erection of Sheds, Machine foundations, Industrial Floors, Roads, Buildings, Steel structures etc.
- Executed a number of projects for setting up of Effluent & Sewage Treatment Plants while working in Grindwell Norton Ltd.

DESIGN & DETAILED ENGINEERING

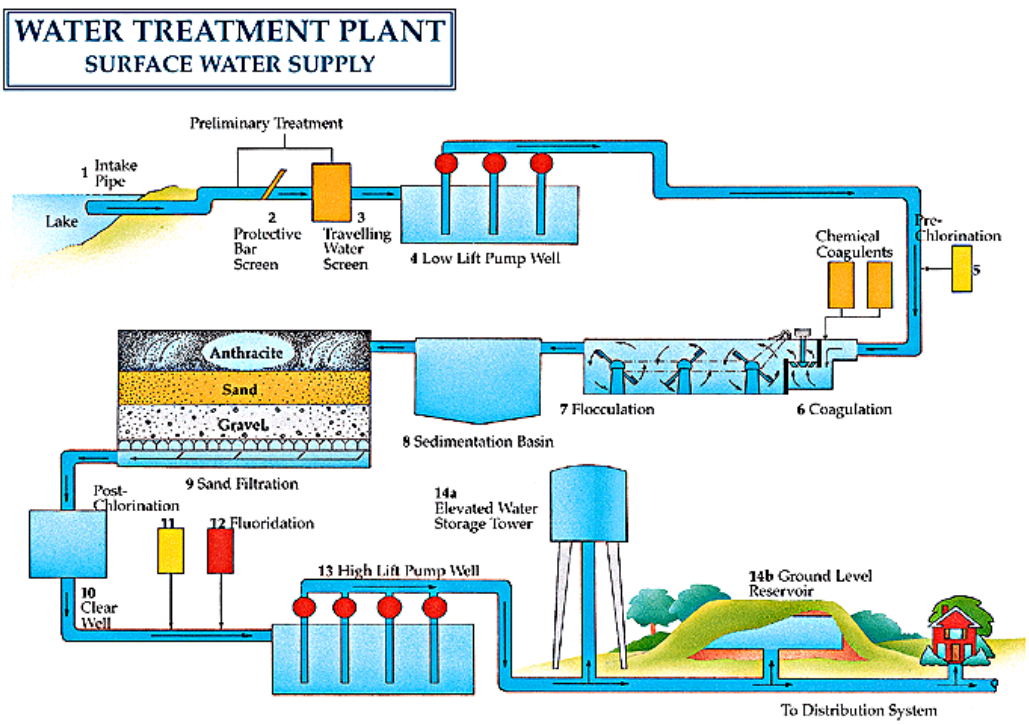

We Offer Process Design & Detailed Engineering Of Various Water, Waste Water And Sewage Treatment Systems Based On Customer Need.

WATER TREATMENT SYSTEMS

Our Water treatment process improves the quality of water to make it more acceptable for a specific end-use. The end use may be drinking, industrial water supply, irrigation, river flow maintenance, water recreation or many other uses, including being safely returned to the environment.

Our Areas of Expertise in Civil and Structural works

Water Retaining Structures

Our Areas of Expertise in Civil and Structural works

Sewage Treatment Plant

Our Areas of Expertise in Civil and Structural works

Truss works/Industrial sheds

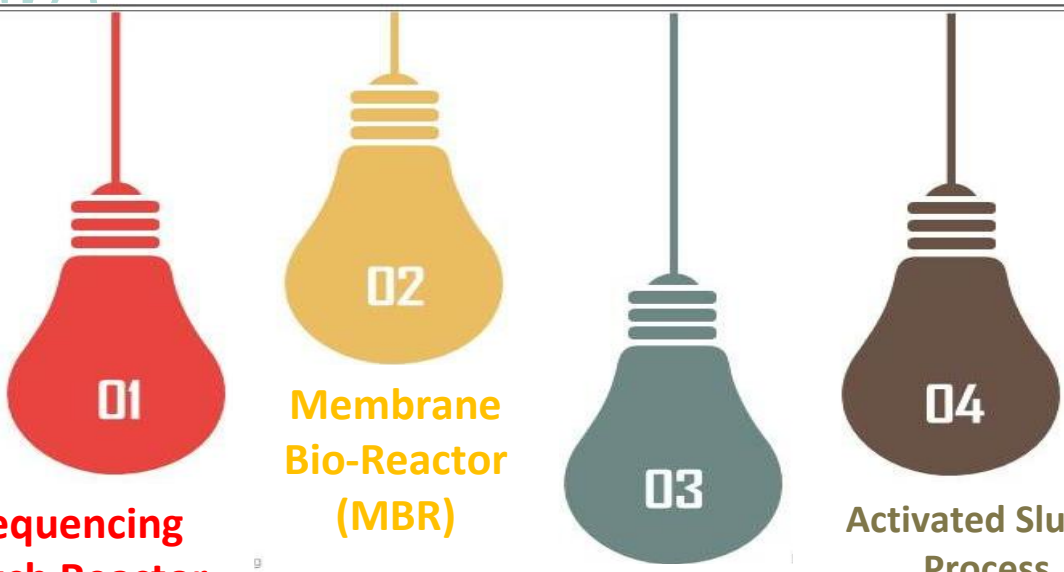

Our Areas of Expertise in waste water treatment.

WIDE RANGE OF TREATMENT TECHNOLOGIES OFFERED FOR STP & ETP

Sequencing Batch Reactor (SBR)

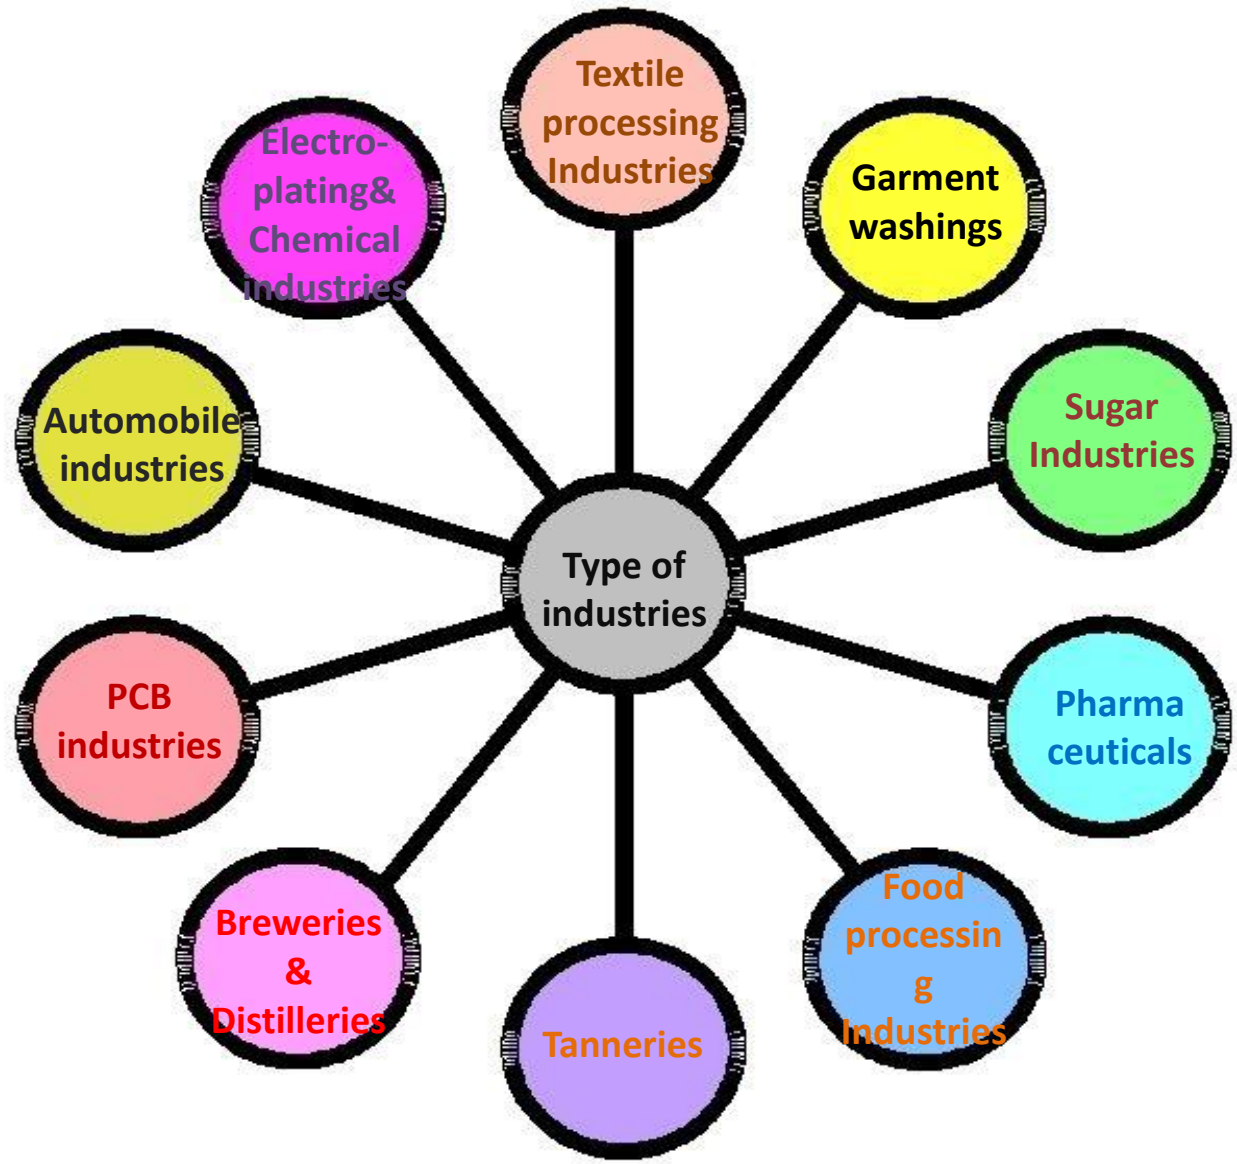

Membrane Bio-Reactor (MBR)

Moving bed bio reactor (MBBR)/Fluidized Bed Bio-Reactor (FBBR)

Activated Sludge Process (ASP)/Extended Aeration (ASPEA)

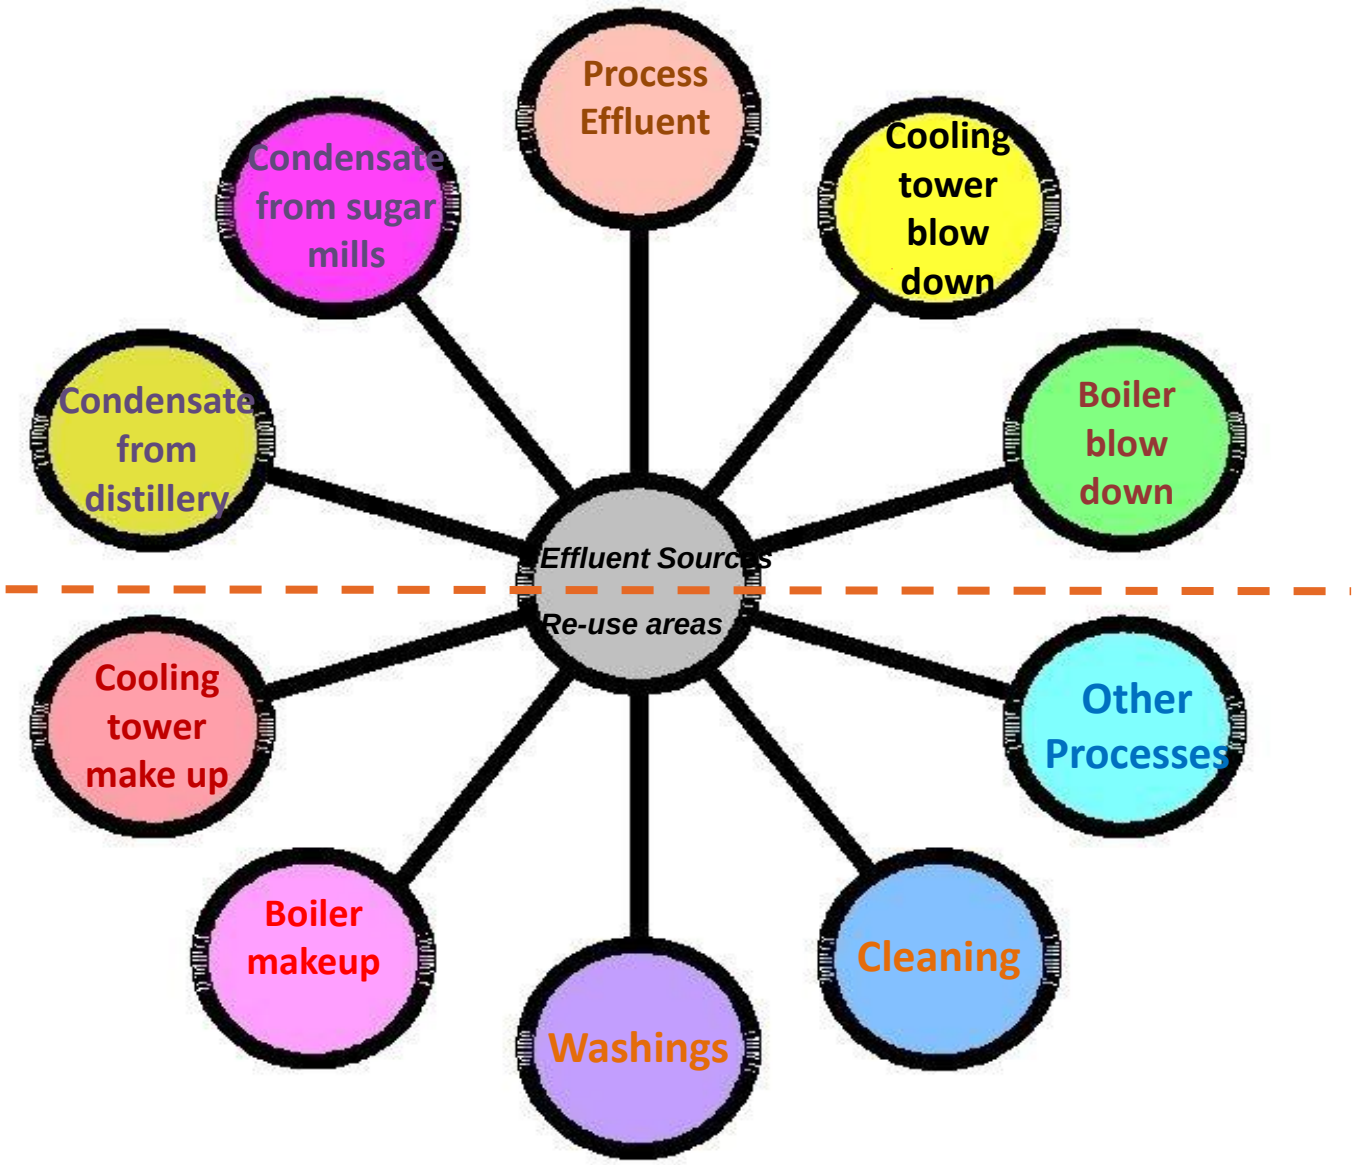

Waste water treatment and Recycle plants - ETP

We offer design, treatment and recycle solutions for varied type of industries.

ETP for Sugar & Distillery Industries

We offer design, treatment and recycle solutions for the effluent generated from sugar and distillery

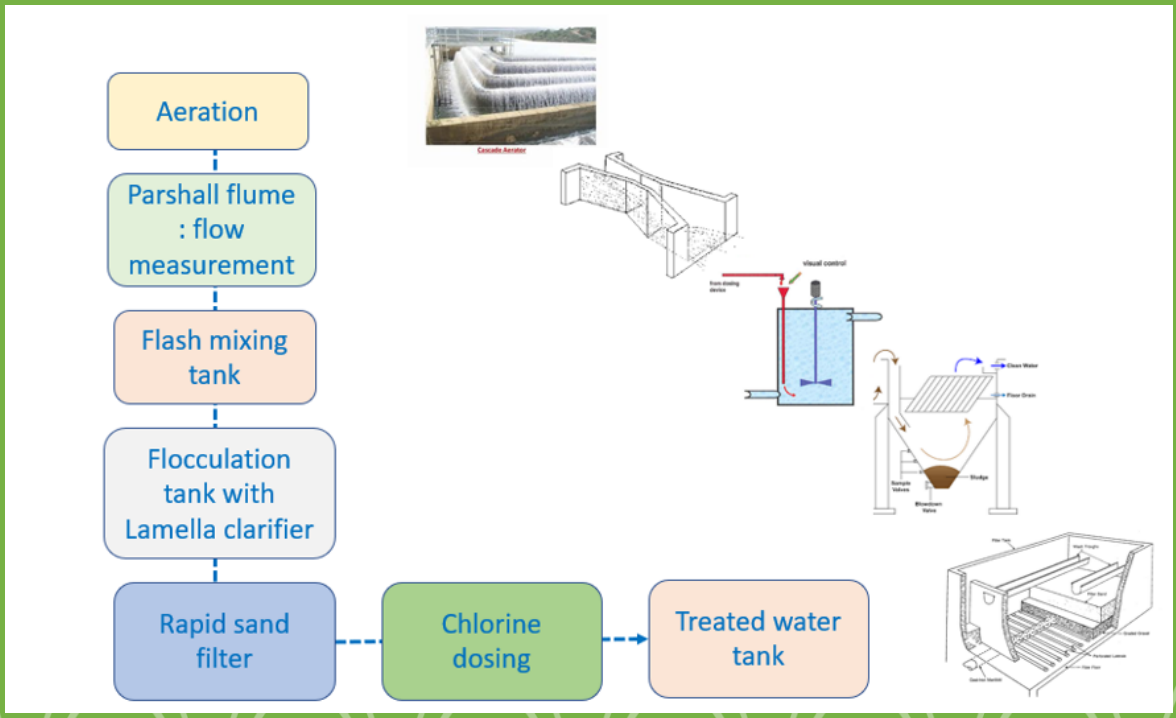

Total Integrated water management practices for Sugar Industry

Our Ongoing Prestigious Projects in Government Sector

Ballari Water Treatment Plant – 15 MLD

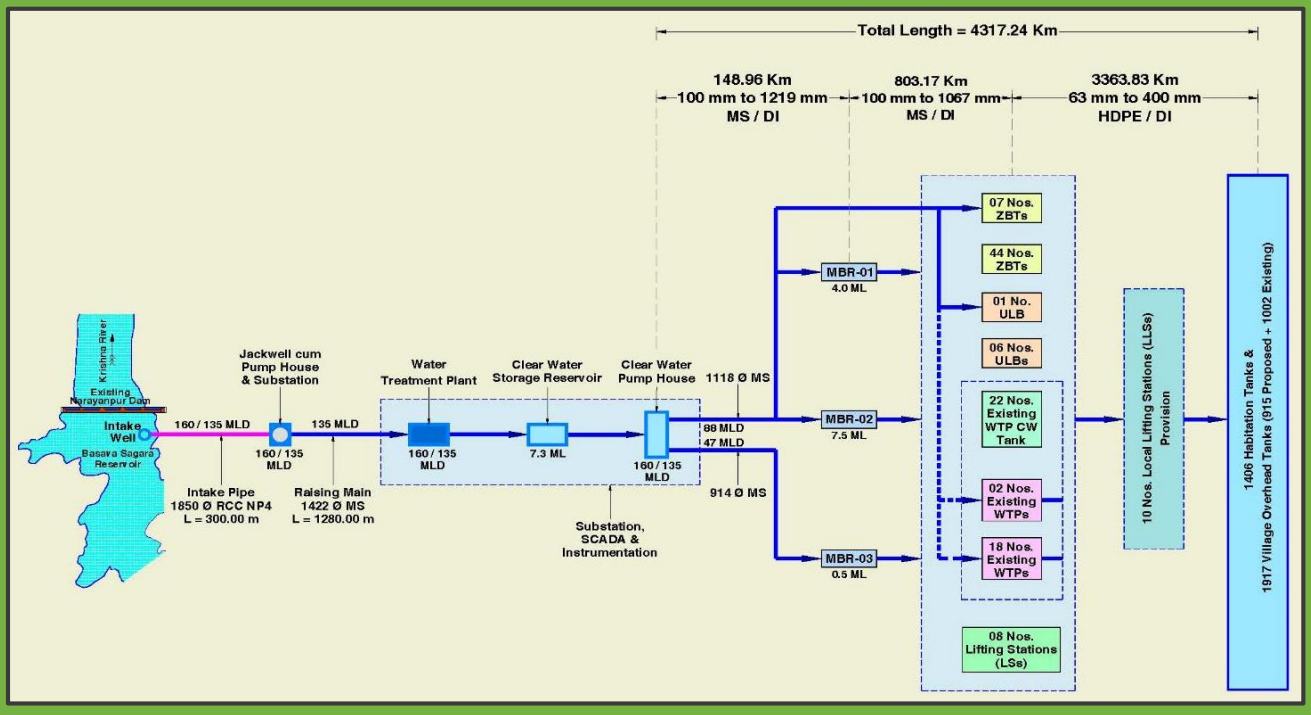

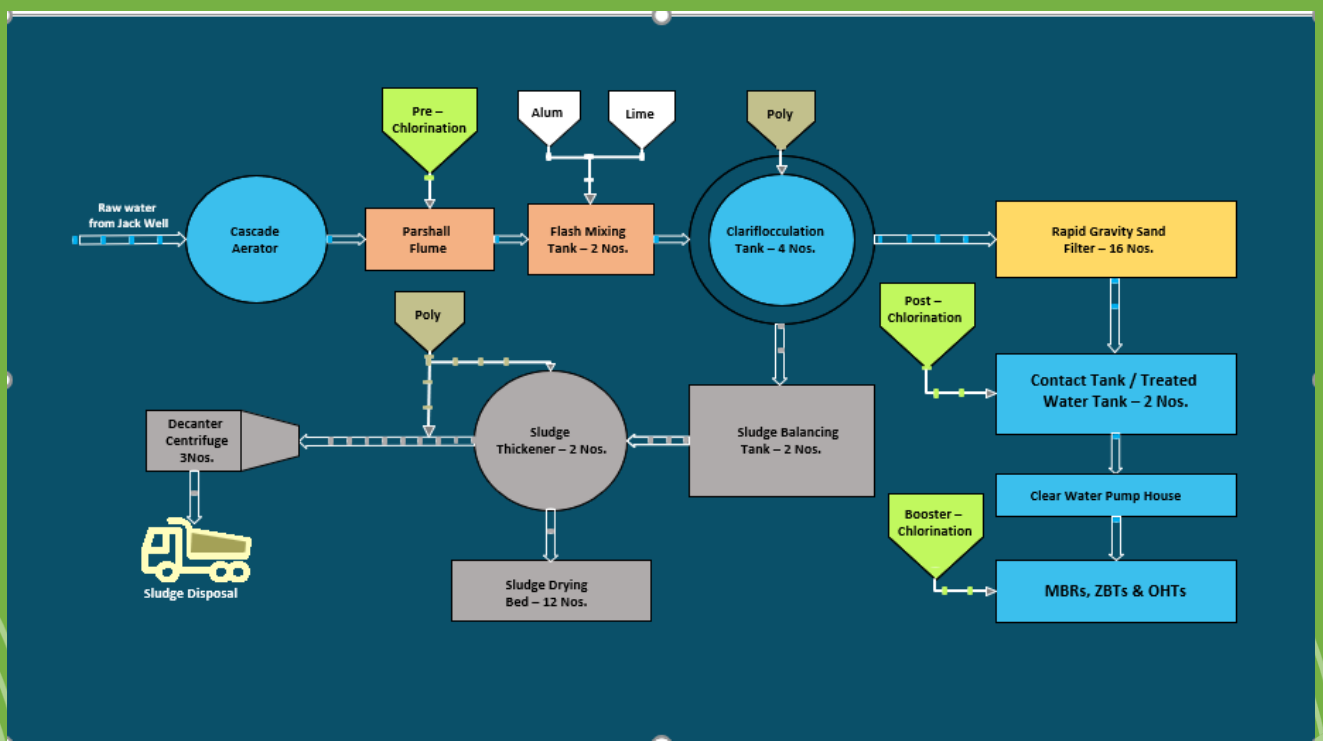

Process Flow Scheme

DRINKING WATER SUPPLY FACILITIES TO 1406 RURAL HABITATIONS AND TREATED BULK WATER SUPPLY TO 7 URBAN LOCAL BODIES IN RAICHUR – PRELIMNARY DESIGN ENGINEERING DURING TENDERING STAGE

SUGGESTED SCHEME

Prefabricated Waste water treatment and Recycle plants (STP's & ETP's)

We offer prefabricated waste water treatment and recycle plants for varied effluent and industries. We offer Design & Fabrication services for modular, compact Wastewater treatment and recycle systems providing simple, trouble free & cost effective treatment system.

Salient features of Pre-fabricated skid mounted units:

- ✓ Simple & modular
- ✓ Stainless steel options are also available.
- ✓ Compact & occupies less foot print area
- ✓ Factory assembled (Pre-fabricated)
- ✓ Mobile (could be shifted to new locations)
- ✓ Suitable for expansion
- ✓ Trouble free
- ✓ Cost effective
- ✓ Just in time investment

RANGE OF PREFABRICATED Waste water treatment and Recycle plants FOR VARIED EFFLUENT AND INDUSTRIES.

Range of prefabricated waste water treatment and recycle plants for varied effluent and industries offered by us .

SOME OF THE APPLICATIONS WOULD COVER:

- ✓ Sewage & sullage treatment & recycle for housing & commercial complexes, it parks, labor colonies at various construction sites.
- ✓ Hotel industries (esp. Kitchen & laundry wastes)
- ✓ Vehicle washings, car wash centers / stations
- ✓ Food processing industries
- ✓ Garment washing units
- ✓ Plating & heavy metal processing industries
- ✓ Rain water & storm water treatment & Reuse
- ✓ Surface potable water pretreatment
- ✓ Medical & research centers
- ✓ Add-on units for polishing of existing etc.
- ✓ Add-on units for augmentation of Flow & Load
- ✓ Auto Ph control system sand many more.

Range of prefabricated waste water treatment and recycle plants for varied effluent and industries offered by us .

Pre-Engineered , Packaged STP's – Johkasou Japanese Technology

We offer prefabricated Sewage treatment and recycle plants for Housing, commercial complexes, Industries, Hospitals, Resorts, Hotels etc. We also offer Design & Fabrication services for modular, compact sewage treatment and recycle systems providing simple, trouble free & cost effective treatment system.

Apartment complex	Individual house	Factory	Commercial building

Pre-Engineered , Packaged STP's – Johkasou Japanese Technology

Combine for big capacity

Install under Car Parking

Install under Green

Complete range of clarification systems offered for Water & Wastewater applications

We offer wide range of clarification systems and some of them are as below.

- Conventional clarifiers
- Clariflocculator
- Lamella clarifier/ Inclined plate settler
- Tube settlers
- Solid contact type clarifiers & many more

Complete range of clarification systems offered for Water & Wastewater applications

Complete range of clarification systems offered for Water & Wastewater applications

We offer wide range of filtration systems and some of them are as below

- Pressure sand filters
- Activated carbon filters
- Screen filters - auto
- Disc filters - auto & many more.

Complete Range Of Aeration Systems Offered For Water & Wastewater Applications

We offer complete range of aeration systems to match the site conditions & to meet the quality needs.

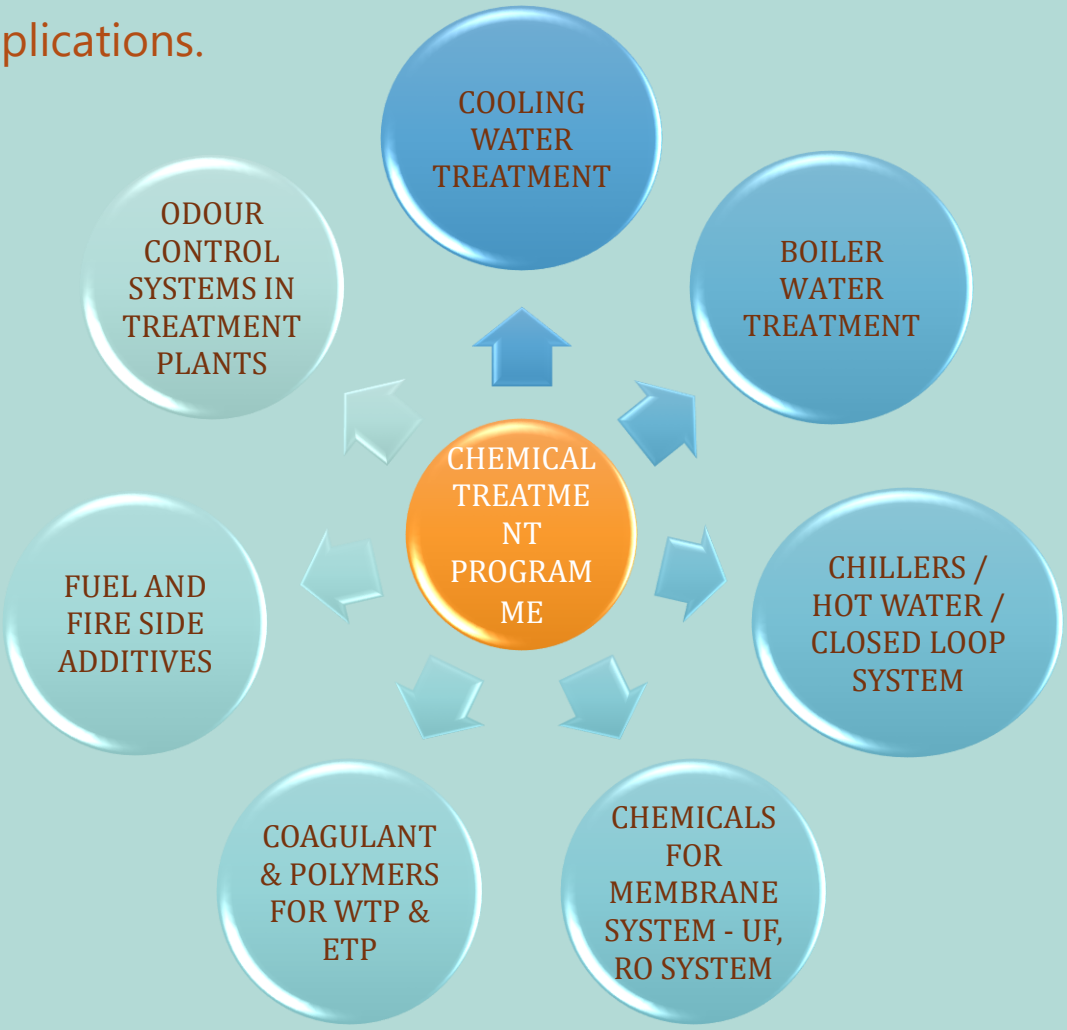

CHEMICAL TREATMENT PROGRAM - CTP

We offers chemical treatment program. For varied type of applications.

OUR MAIN OBJECTIVES

Troubleshooting O&M of a plant w.r.t chemical operation and recommending proper cost effective chemical (Main aim to solve existing problem and attain max operation efficiency - Cost reduction).

Recommending new generation chemicals wherever possible, which ultimately reduces cost of operation (Chemical, Manpower, Water, Power and Spares etc).

Industrial Range Of Pre-engineered , Pre Assembled UF & RO Systems

We offer pre-engineered & assembled UF & RO systems for various industries.

- ✓ Tannery
- ✓ Textile Processing
- ✓ Garment washings
- ✓ Treated Sewage
- ✓ Food processing
